CUSTOM WORK & COMMISSIONS

I enjoy taking a customer's idea, or something that is important to them, and creating a design appropriate and effective as a papercut.

I am able to create **framed papercuts** although I am also keen to work on **large scale displays, installations** and **illustration**

DESIGN

In terms of what you would like designed, the possibilities are endless. I have created a wide range of designs in the past including; favourite or significant birds/plants/animals, an important book or character, landscapes, name designs and scenes from folklore. It is a good idea to look through the images on the commission gallery on this website to see my previous work and possibly gain inspiration.

I am afraid I do not offer papercuts of portraits, vehicles or buildings.

PROCESS

Once you have registered your interest I will work with you and help you formulate the ideas to allow me to create your design. Once this has been gathered I will provide you with test sketches before we finalise the design and I begin cutting.

TIMELINE

The minimum turnaround time for a commissioned piece is six weeks. This may vary depending on the size of the piece and my schedule. Do let me know if you have a deadline.

FRAMES

All my pieces come framed. This ensures they are displayed properly and remain intact. My partner creates bespoke frames for each of my pieces.

The frame is included in the price of the piece.

P O S T A G E

My pieces are well packaged and are sent by Parcelforce courier so we will confirm a date and time convenient for you to take delivery.

Postage and packaging is £15 minimum, for larger pieces it may be a little more.

I will not post outside the UK for anything larger than 25x25cm.

Postage will only occur after full payment.

P A Y M E N T

I require a 30% deposit on commissions once the design has been finalised and then the rest on completion. Postage will follow full payment.

P R I C E G U I D E

These prices are for guidance. It is always best to discuss your ideas and budget with me and then we can formulate a design to the satisfaction of both.
